

Taeil Kwak

Objective

Prospective product manager with a background in user experience design and front end development. Took several products from concept to launch with a hand in each step of the way.

Experience

UX Designer and Front End Developer (2013 - 2019)

Tecture, LLC | Chicago, IL | tecture.com

- Ideated, researched, and created interfaces for a variety of applications
- Developed the front end of applications and implemented designs in frameworks such as Angular, ASP.NET Razor, and Wordpress
- Researched and implemented methodologies, technologies, and best practices for UI/UX design and front-end development
- Performed user research, focus group studies, and surveys to improve the user experience of a product
- Managed and prioritized development tasks in a Jira backlog
- Demonstrated organization by managing multiple projects with different customers

UX Volunteer (Current: Summer 2019)

UN Volunteers | onlinevolunteering.org

- Performing discovery and research on school systems and the state of schools and technology in Africa
- Creating a list of features and prioritizing them to determine what to build
- Creating an interface for school management systems in Africa

Design Intern (Summer 2012)

Monsoon Company | Berkeley, CA

- Created interfaces and wireframes for various applications
- Researched, ideated, and brainstormed health applications
- Designed and edited logos, images, audio, and other elements
